## ERSA Workshop Prospective on African Economic Integration Rhodes University - 19<sup>th</sup> and 20<sup>th</sup> June 2008

The workshop will serve as a forum to present current research and results in the areas of African Economic Integration and will give researchers in these areas the opportunity to network. Although there is a growing literature on economic integration in Africa, both nationally and internationally, there has not been a dedicated forum where to present and discuss current research and evaluate future area of analysis. This two days workshop aims to fill this gap and link the national debate to the international literature, inviting leading researchers in the area. Both theoretical and empirical studies are welcome. As the workshop intends to build a network in this research area, participation is welcome even without paper contributions.
