ERSA Workshop Trade and Industry: Policies and Analysis Pretoria 26 November 2008

ERSA is pleased to announce a one day workshop to take place at the Kievits Kroon Country Estate in Pretoria on 26 November 2008. Participants will travel to Pretoria on the afternoon of 25 November and there will be a workshop dinner on the evening of 25 November.

The workshop serves two purposes. The *morning sessions* will be devoted to a presentation and discussion of some of the papers written under the auspices of the South Africa Growth Initiative programme of the Center for International Development at Harvard University. Presenters will include Lawrence Edwards, Johannes Fedderke and Jim Fairburn. The *afternoon sessions* will be given over to new work in the fields of international trade and industrial organization. Presenters will include Neil Rankin, Shakill Hassan and Witness Simbanegavi.

Those wishing to attend should contact Tania Jacobs (tania.jacobs@uct.ac.za) at ERSA before the 7th November 2008.

The Trade and Industry Group

The current event is one of a series of workshops to be run by ERSA's trade and industry group. If you are an active researcher in either international trade or industrial organization and would like to present at a future workshop, please contact the convenor of the group, Jim Fairburn (fairburnj@ukzn.ac.za), with a description of your research. PhD students and junior faculty members are particularly encouraged to make contact.
